Foreword

In 2022, the cautiously optimistic outlook for a global economic recovery from the COVID-19 pandemic was dealt a hard blow by the conflict in Ukraine and its spillover effects, including elevated debt levels, inflation and financial market volatility. As the world continues to face a polycrisis, and the cost of living and poverty continue to rise, the prospect of achieving the Sustainable Development Goals in 7 years seems more uncertain than ever.

With global economic conditions dampening the fiscal outlook for many, the dedicated support of our funding partners allowed UNDP to continue delivering significant results, effectively and at scale. By utilizing the scarce resources entrusted to us by our partners in an efficient manner, UNDP achieved a record delivery of \$4.8 billion in 2022, and met 95 per cent of its planned programmatic targets for the year. Despite crises, economic shocks and political instability, UNDP kept services, infrastructure, jobs and social protection systems going, reaching tens of millions of people in need.

We sincerely thank our partners for investing in UNDP as a key trusted partner, especially our #PartnersAtCore, as regular 'core' resources remain the most critical and flexible type of funding, enabling us to respond rapidly in crisis situations, continue our strong support to low- and middle-income countries, lay the foundational work in programme design to attract additional financing, strengthen thought leadership in innovation, and maintain high standards in oversight, transparency and accountability. A strong programme based on core resources is a prerequisite for the effective delivery of pooled funding as well as earmarked non-core funds.

However, in 2022, we saw core funding decline for a second consecutive year, sustaining the imbalance in the core to non-core ratio, and a lack of progress towards meeting the related Funding Compact targets. A persistent decline in core resources for UNDP means less funding for programmes directed at countries

and communities where the needs are greatest, more difficulty in mounting effective responses to crises, setbacks in delivering multiple functions jointly as part of the UN system, and challenges in upholding our normative mandate. With flexible funding shrinking and earmarked resources increasing, UNDP's efforts to go 'beyond projects' and move to portfolios to deliver longer-term systemic results are threatened.

Looking ahead, the funding landscape for 2023 and beyond remains highly uncertain. Further cuts in core funding will disproportionately impact the most vulnerable and exacerbate the multiple challenges they are already facing. Therefore, it is with urgency that we call on our partners to protect their investment in UNDP, refrain from cutting their core contributions, and avoid redirecting ODA away from global human development as investing in development to prevent and emerge from crisis is the smartest investment.

With a bold and ambitious Strategic Plan, 2022-2025 that strives to lift 100 million people from multidimensional poverty, enable 800 million people to participate in elections, provide clean energy to 500 million people, and align \$1 trillion in public and private finance for the SDGs, UNDP will continue to rely on your support to achieve these "moonshots" and get us back on track to achieving Agenda 2030.

Let us join forces and strive for a more prosperous, equitable, and sustainable future for all.

Ulrika Modéer
Assistant Secretary-General
and Assistant Administrator
Bureau of External Relations
and Advocacy

Executive Summary

The Funding Compendium presents the annual contributions received by UNDP from its funding partners, through a variety of channels including Regular Resources ("core") and Other Resources, which range in earmarking from softly earmarked thematic funds to tightly earmarked funds for specific programmes or projects.

In a difficult funding environment exacerbated by crises, economic shocks and geopolitical tensions, UNDP continued to enjoy dedicated support from its partners. In 2022, UNDP received \$4.9 billion in annual contributions, including \$591 million in regular resources. Unfortunately, this is a 7 per cent decline from \$5.3 billion received in 2021 and the proportion of regular resources remained at 12 per cent of total resources.

Despite record lows in regular resources funding, 2022 saw the highest-ever delivery by UNDP – \$4.8 billion – through which it met 95 per cent of planned programmatic targets for the year. That UNDP maintained such strong momentum testifies to its commitment and operational strength. But the situation is not sustainable. A breaking point will come if funding trajectories continue to decline, at a cost to UNDP and the people and developing countries it serves.

TOTAL ANNUAL CONTRIBUTIONS¹ TO UNDP.

Annual contributions decreased by 7 per cent to \$4.9 billion in 2022, from \$5.3 billion in 2021. Of this total, \$2.0 billion or 41 per cent was from donor country governments, \$1.7 billion or 35 per cent was from multilateral partners, and \$1.2 billion or 24 per cent was from programme country governments.

REGULAR RESOURCES.

Annual contributions to regular resources decreased by 9 per cent to \$591 million, from \$648 million in 2021. The proportion of regular resources remained at 12 per cent of total annual contributions. Multi-year commitments amounted to \$196 million, or 33 per cent of regular resources contributions, down from 37 per cent in 2021.

OTHER RESOURCES.

Annual contributions to other resources decreased by 7 per cent to \$4.3 billion from \$4.7 billion in 2021.

¹ In 2019, UNDP refined its accounting policy on International Public Sector Accounting Standard (IPSAS) 23 (non-exchange) revenues. Following the policy, UNDP records the full value of funding agreements when signed, even when cash has not been received for the majority of the contribution agreements. Any uncollected cash associated with funding agreements is held as a receivable. Under the UNDP financial regulations and rules, UNDP is permitted to spend only up to the amount of cash received; hence, "annual contributions" are presented to align with the past revenue recognition policies for contributions (i.e., cash received in a reporting year, plus receivables due in a reporting year) where applicable in this document.

9% decrease in core funding (regular resources)

Core contributions received in 2022 decreased to \$591 million from \$648 million in 2021

14% increase in third-party cost-sharing

Contributions from third-party cost-sharing increased to \$1.92 billion from \$1.68 billion in 2021

42% increase in funding windows

Contributions from thematic funding windows increased to \$119 million from \$84 million in 2021

10 partners increased their contributions to regular resources

United States, Sweden, Japan, Norway, Australia, Italy, Luxembourg, Austria, Iceland, and Spain (returned) increased their contribution to regular resources

6 new multi-year pledges to contribute regular resources

Sweden, Switzerland, Australia, Luxembourg, New Zealand, and Türkiye signed multi-year pledges to contribute regular resources

Record programme delivery

Highest programme delivery of \$4.8 billion, meeting 95 per cent of planned programmatic targets for the year

COMMITMENT TO TRANSPARENCY AND ACCOUNTABILITY

Long-standing commitment to transparency

As a member of the International Aid Transparency Initiative (IATI) since its creation in 2008, UNDP has led outreach efforts with partner countries and UN agencies to champion the aid transparency standard and make it relevant for national development planning, public financial management and mutual accountability of aid, development and humanitarian funding. UNDP was ranked the **2nd most transparent UN agency** in the 2022 Aid Transparency Index.

UNDP's [Transparency Portal](#) allows open, comprehensive public access to data on more than 5,000 UNDP projects with links to profile pages for every donor. The portal also shows UNDP's contribution to the Sustainable Development Goals and offers an online training platform on the IATI Standard open to all.

Promoting transparency across the UN system

UNDP actively participated in defining and implementing a set of [UN data standards](#) for system-wide financial reporting.

Publishing audit reports

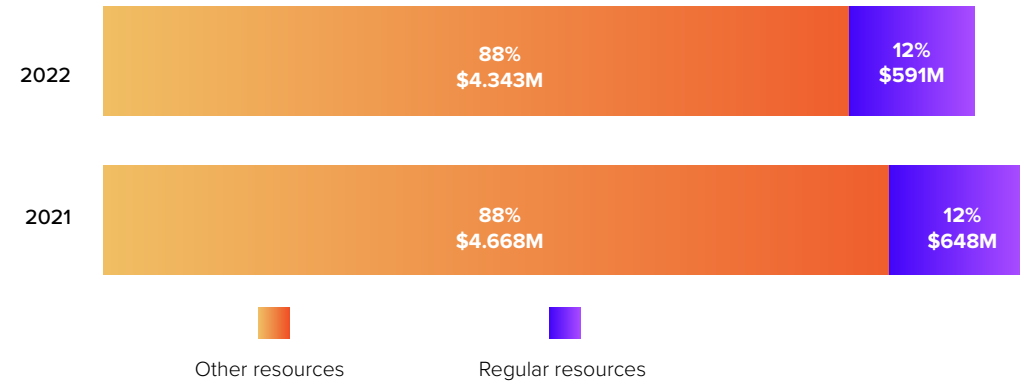

UNDP has been [publishing audit reports](#) issued by the Office of Audit and Investigations since 2012, and has obtained an unqualified (clean) financial statements audit reports from UNBOA for **17 consecutive years**.

RESOURCES BY FUNDING TYPE

Regular and other resources, 2022

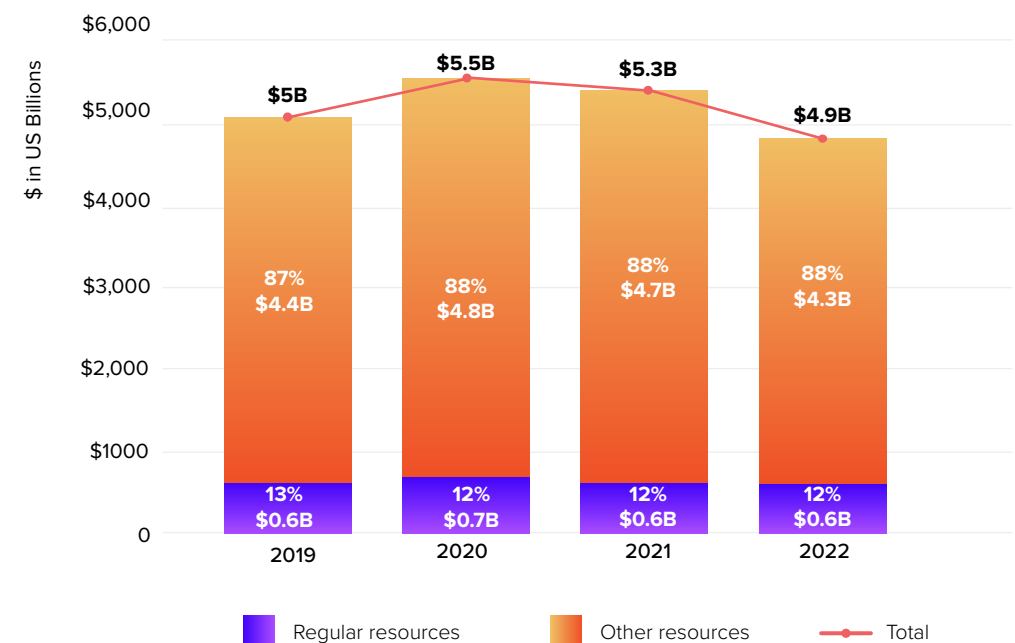

In 2022, total annual contributions to UNDP amounted to \$4.9 billion, a 7 per cent decline compared to \$5.3 billion received in 2021. Annual contributions to regular resources decreased by 9 per cent from \$648 million to \$591 million, while annual contributions to other resources decreased by 7 per cent to \$4.3 billion from \$4.7 billion in 2021.

Regular resources are critical for UNDP to support the world's poorest, be present on the ground before, during and after emergencies, fill resource gaps in underfunded areas of the Strategic Plan, leverage additional resources, and restore the promise of development.

Regular and other resources trend, 2019-2022

Over the period 2019-2022, UNDP's total annual contributions were highest in 2020 and 2021, owing to increased resources in response to the COVID-19 pandemic. The conflict in Ukraine and lagging effects of the pandemic dampened the global economic situation for UNDP and its partners in 2022. Annual contributions to regular and other resources decreased by 9 and 7 per cent, respectively, while the proportion of regular resources remained at 12 per cent.

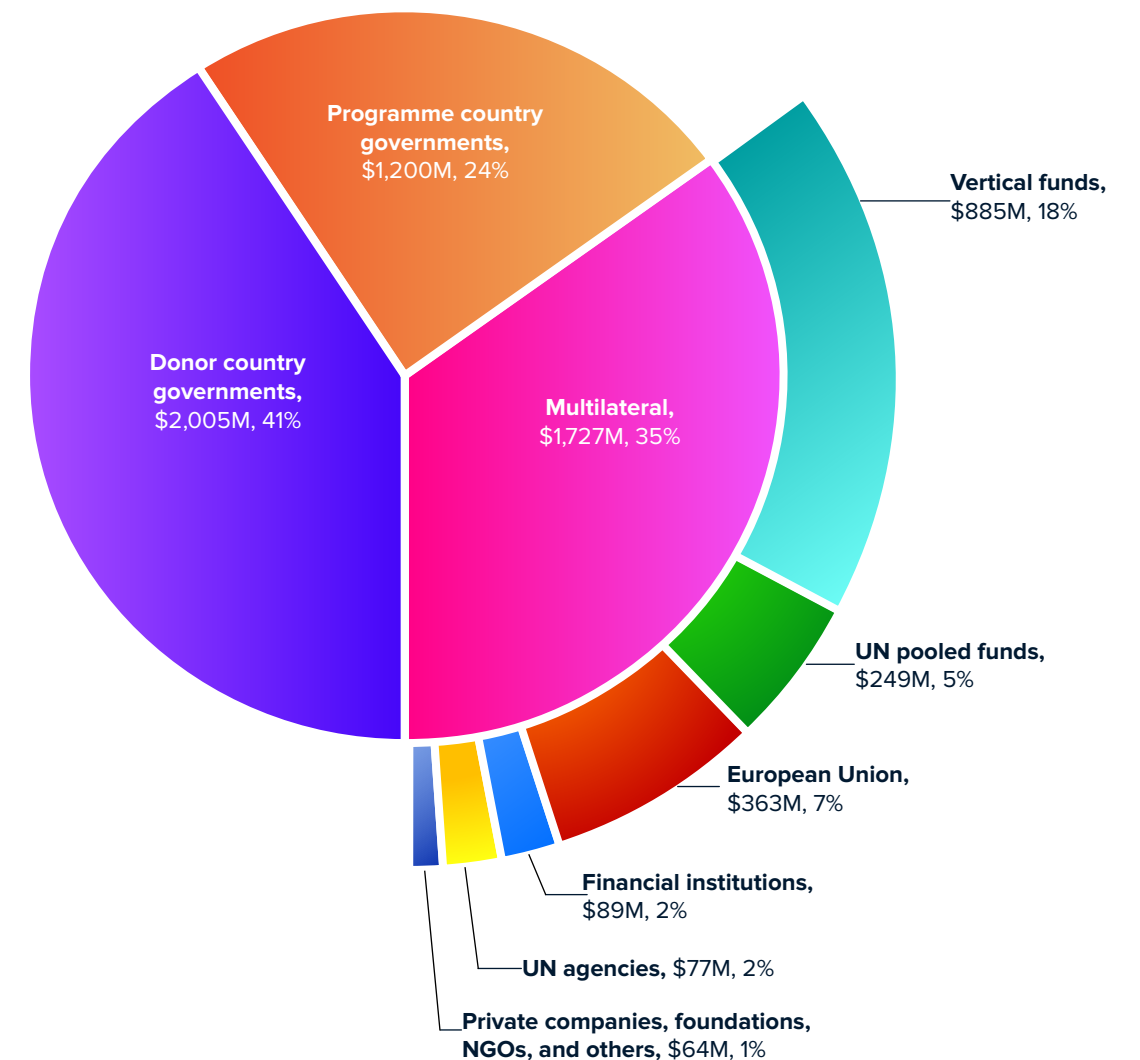

RESOURCES BY FUNDING PARTNER

Resources by funding partner

UNDP values all types of funding it receives from a variety of partners – Member States, multilateral organizations, non-governmental entities, private and philanthropic sectors, and financing institutions - allowing it to deliver on its commitments. The chart below shows a breakdown by partner of total annual contributions received in 2022. Donor country governments remain the biggest contributors followed by programme country governments and multilateral partners.

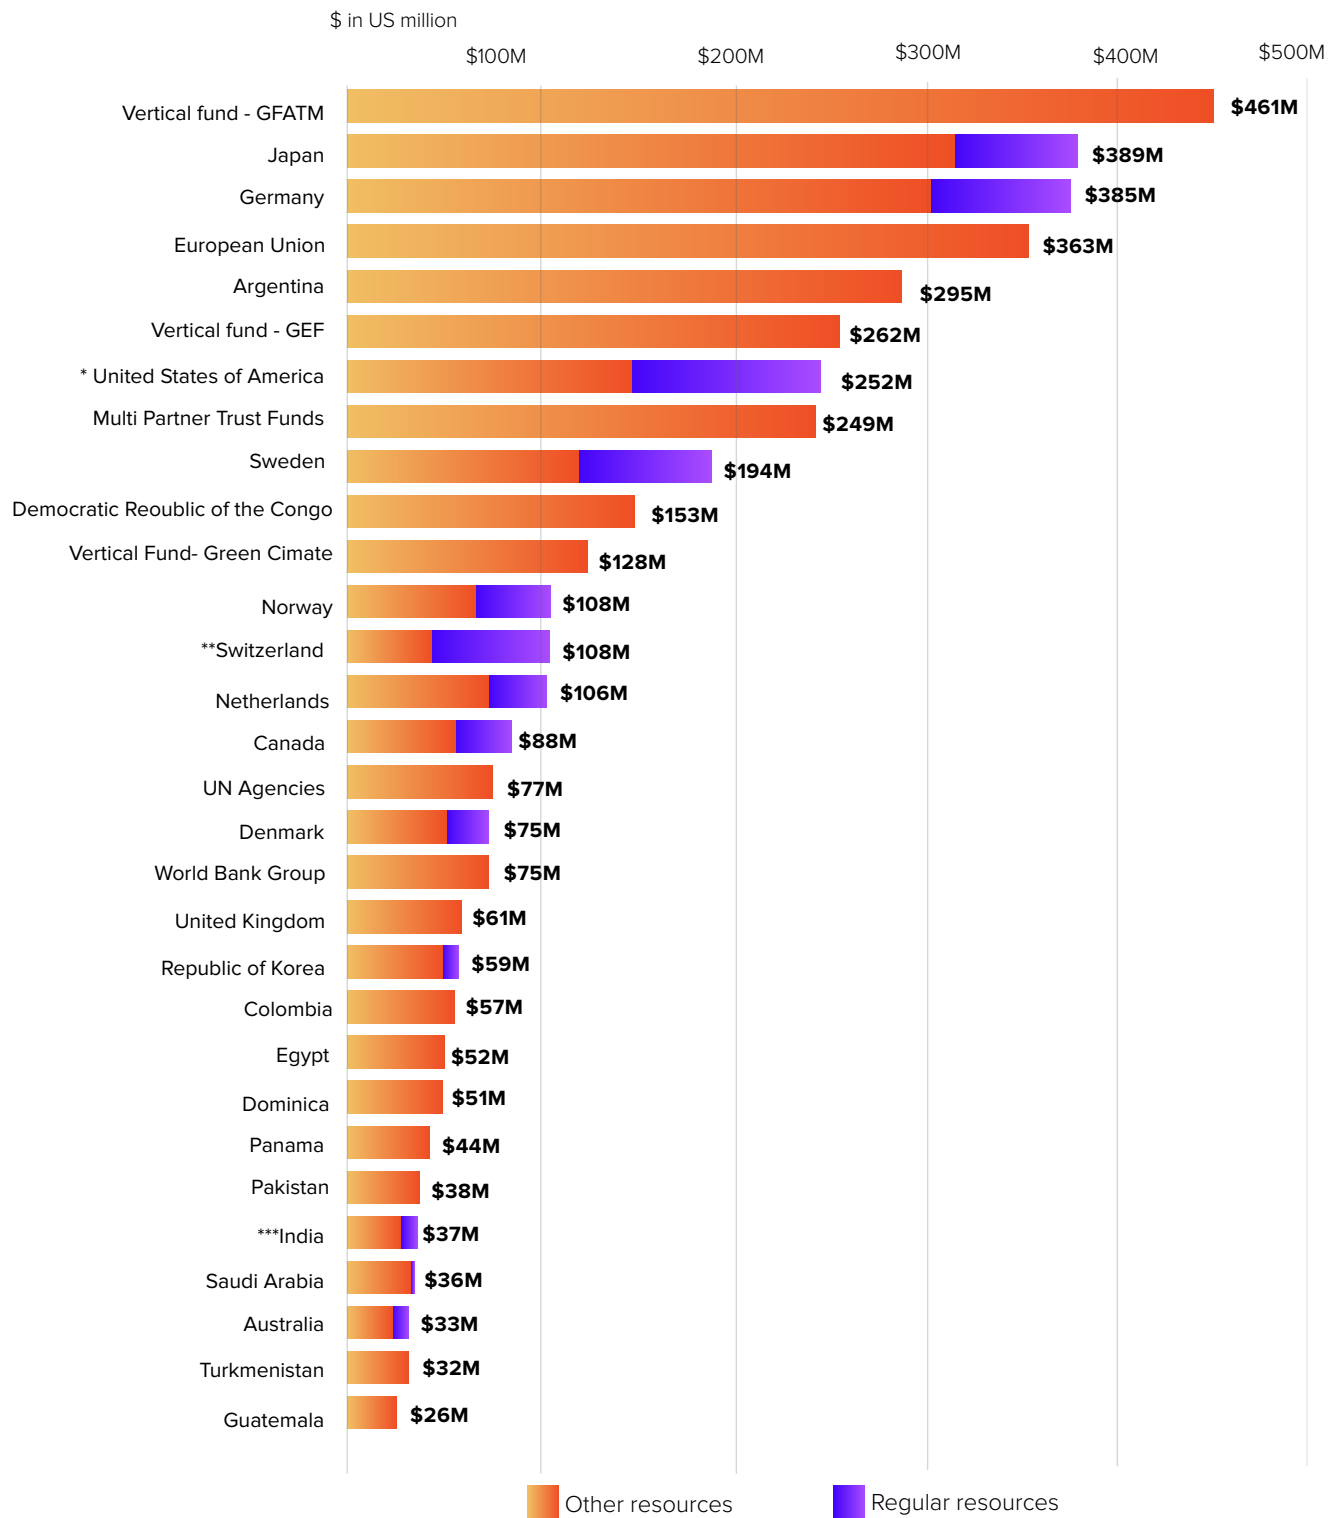

Resources by partner group, 2022

Contribution by Donor category in 2022

Top 30 resource partners, 2022

UNDP's top 30 resource partners contributed \$4.3 billion, or 87 per cent of total annual contributions in 2022.

* Reflects an adjustment for recording annual contributions from USAID Letter of Credit (LOC), includes 2021 contributions received in 2022 and \$19.6m core for COVID -19 response in 2022.

** Includes an additional \$13.3m core intended for 2021 but received in 2022.

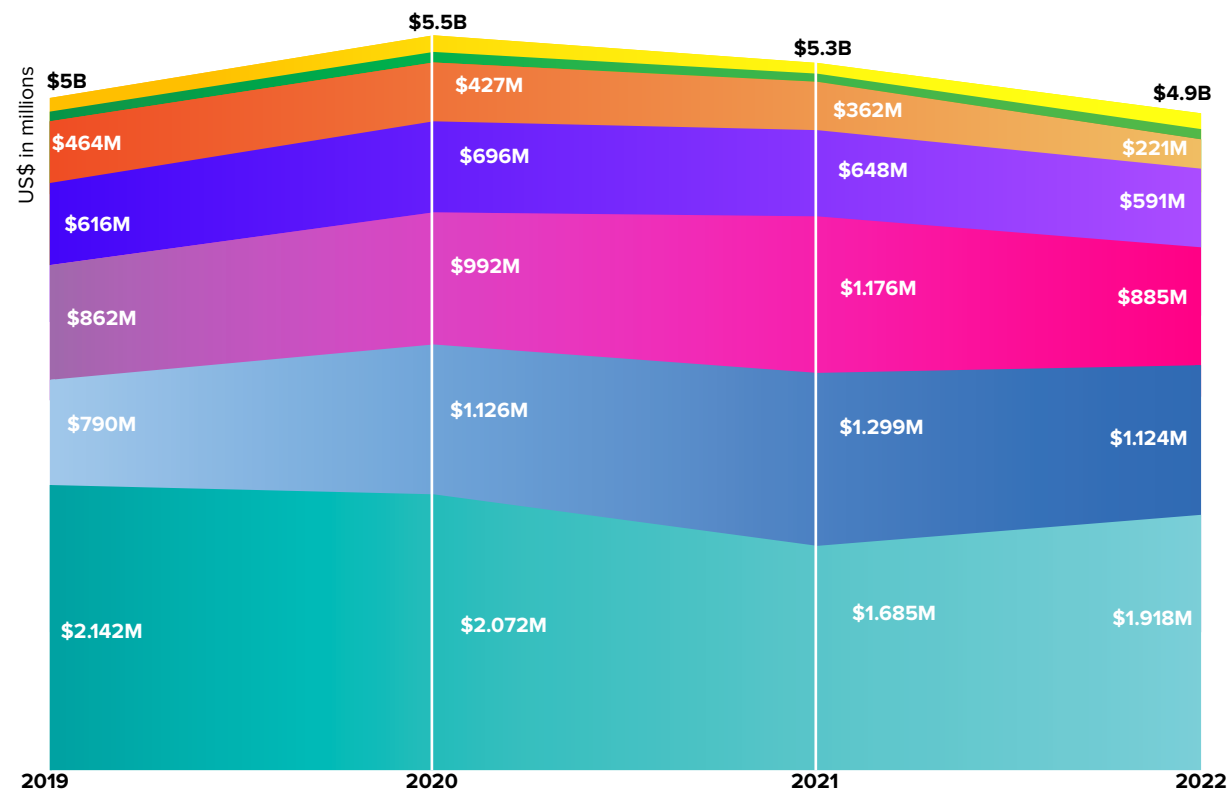

***Includes \$4.4m core intended for 2021, but received in 2022

RESOURCES BY FUNDING CHANNEL

UNDP receives its funding through various channels as described below. In 2022, UNDP faced a difficult funding environment exacerbated by crises, economic shocks and geopolitical tensions. Annual contributions to regular resources decreased by 9 per cent while annual contributions to other resources decreased by 7 per cent. Contributions to thematic funding, a critical complement to regular resources, increased by 42 percent while contributions from Vertical Funds and Government financing decreased by 24 and 13 per cent, respectively. Despite the decrease, contributions from Government financing which make up over one fifth of UNDP's resource base, exceeded the planned contribution estimate for 2022. Third-party cost sharing continues to make up the largest share of earmarked resources to UNDP, making up 39 per cent of total contributions.

Resources by funding channel, 2019 – 2022

REGULAR "core" RESOURCES:

Unearmarked funds that are foundational to deliver results across the Strategic Plan.

OTHER RESOURCES:

Earmarked funds for specific themes, programmes or projects.

Government Financing: A voluntary funding mechanism by which programme country Governments entrust their domestic resources, or loans extended by financial institution (IFIs), to UNDP to assist in the implementation of development initiatives in their respective countries.

Thematic Funds: Softly earmarked pooled funds designed to support the achievement of outcomes aligned with the Strategic Plan, and address issues that cut across thematic areas.

Third Party Cost Sharing: Earmarked contributions for a specific programme, project, region, or country.

UN Pooled Funds: A UN inter-agency financing mechanism supporting clearly defined programmatic scopes and results frameworks, enabling global and local responses to humanitarian, development, environmental, and peace-related challenges.

Vertical Funds: Earmarked funds for a single area of development – e.g., health or environment.

Reimbursable Support Services: Funds for management and support services, including for UN Volunteers, the Junior Professional Officer (JPO) Programme.

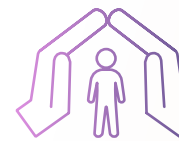

REGULAR "core" RESOURCES

Why Core Matters

BEFORE, DURING, AND AFTER AN EMERGENCY

Through core resources, UNDP is able to respond quickly and flexibly to the development needs of countries affected by conflicts and natural disasters. It allows UNDP to be present on the ground before, during and after emergencies, to service the international community in directing resources where they are most needed. Core enables UNDP to quickly deploy funds, provide life-saving services, support governments to sustain governance structures and continue providing basic services, and preserve development gains.

SUPPORTING THOSE WHO NEED THE MOST

UNDP directs over 80 per cent of core funding to least developed and low-income countries, where development needs are greatest and resources are most scarce. In fragile settings, UNDP's programmes fund a broad range of needs - from job creation to climate security – and focus on building long-term resilience so that no one is left behind.

CORE MEANS MORE

Core funding is a smart investment because it's a magnet for more money. In 2022, every core dollar spent on UNDP's programmes brought ten more in non-core funding. UNDP's environmental portfolio, resourced at \$3.9 billion, leveraged \$15.1 billion in additional public and private funds to confront the planetary crisis.

TRANSPARENCY, OVERSIGHT, AND ACCOUNTABILITY

Core funding helps UNDP maintain high standards of quality assurance and transparency, support independent oversight functions such as evaluation, ethics, and development effectiveness, underpinning a strong commitment to accountability. It also allows UNDP to support UN system-wide assets and the UN Development System. In 2022, UNDP obtained a clean audit opinion for the seventeenth consecutive year and was ranked the 2nd most transparent UN agency on the Aid Transparency Index.

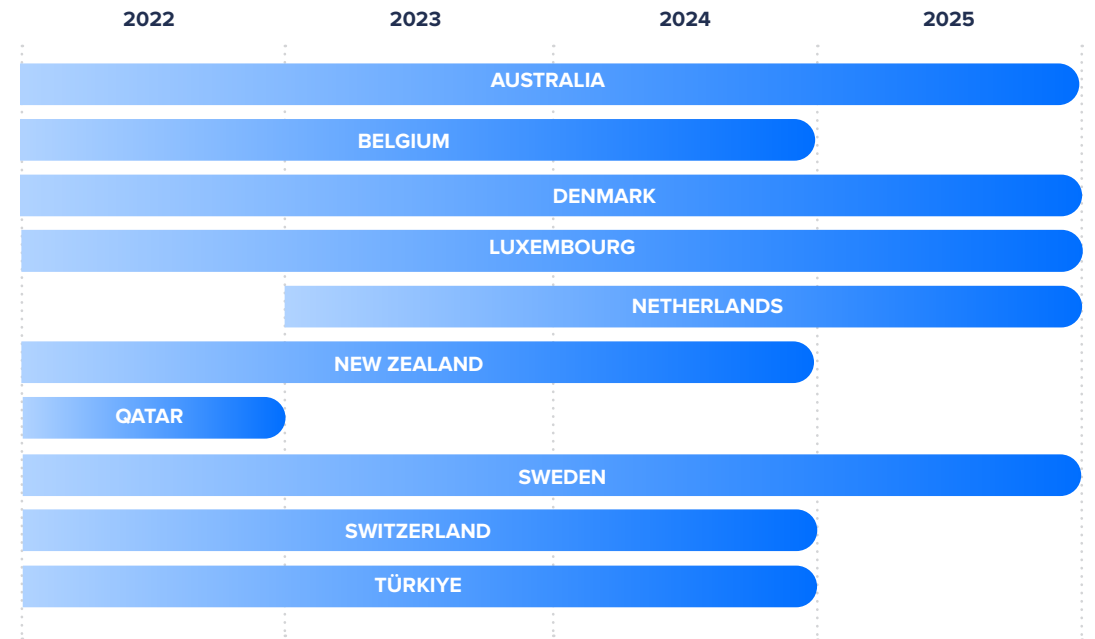

INNOVATION AND THOUGHT LEADERSHIP

Core funding allows UNDP to test innovative approaches to support development. Its Accelerator Lab networks are pushing the boundaries on frontier development issues. The Human Development Report Office, funded from core, spearheads cutting-edge research, constructively challenges policies and approaches constraining human development, advocates for practical policy changes, and enhances thought leadership overall.

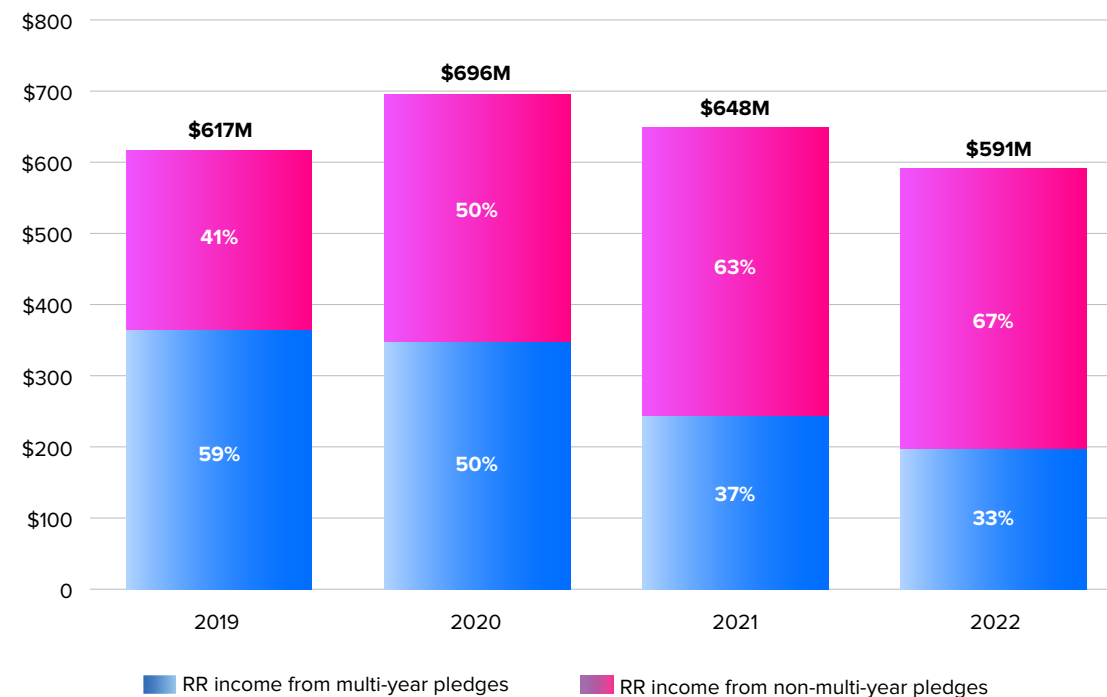

In 2022, UNDP received
\$591 MILLION
 IN CORE CONTRIBUTIONS,
 of which, 33 per cent were backed
 by multi-year commitments.

GOVERNMENT CONTRIBUTIONS TO LOCAL OFFICE COSTS (GLOC)

Annual government contributions to local office costs (GLOC) are an important source of revenue and can take the form of in-kind or cash contributions by host governments. In the low and middle-income countries categories, \$29 million was received in 2022 (2021: 33 million), consisting of cash contributions of \$22 million (\$16 million for 2022 targets and \$6 million against arrears) and in-kind contributions of \$7 million for premises and utilities.

GLOC CONTRIBUTIONS BY TOP 10 HOST GOVERNMENTS, 2022

US\$ in millions

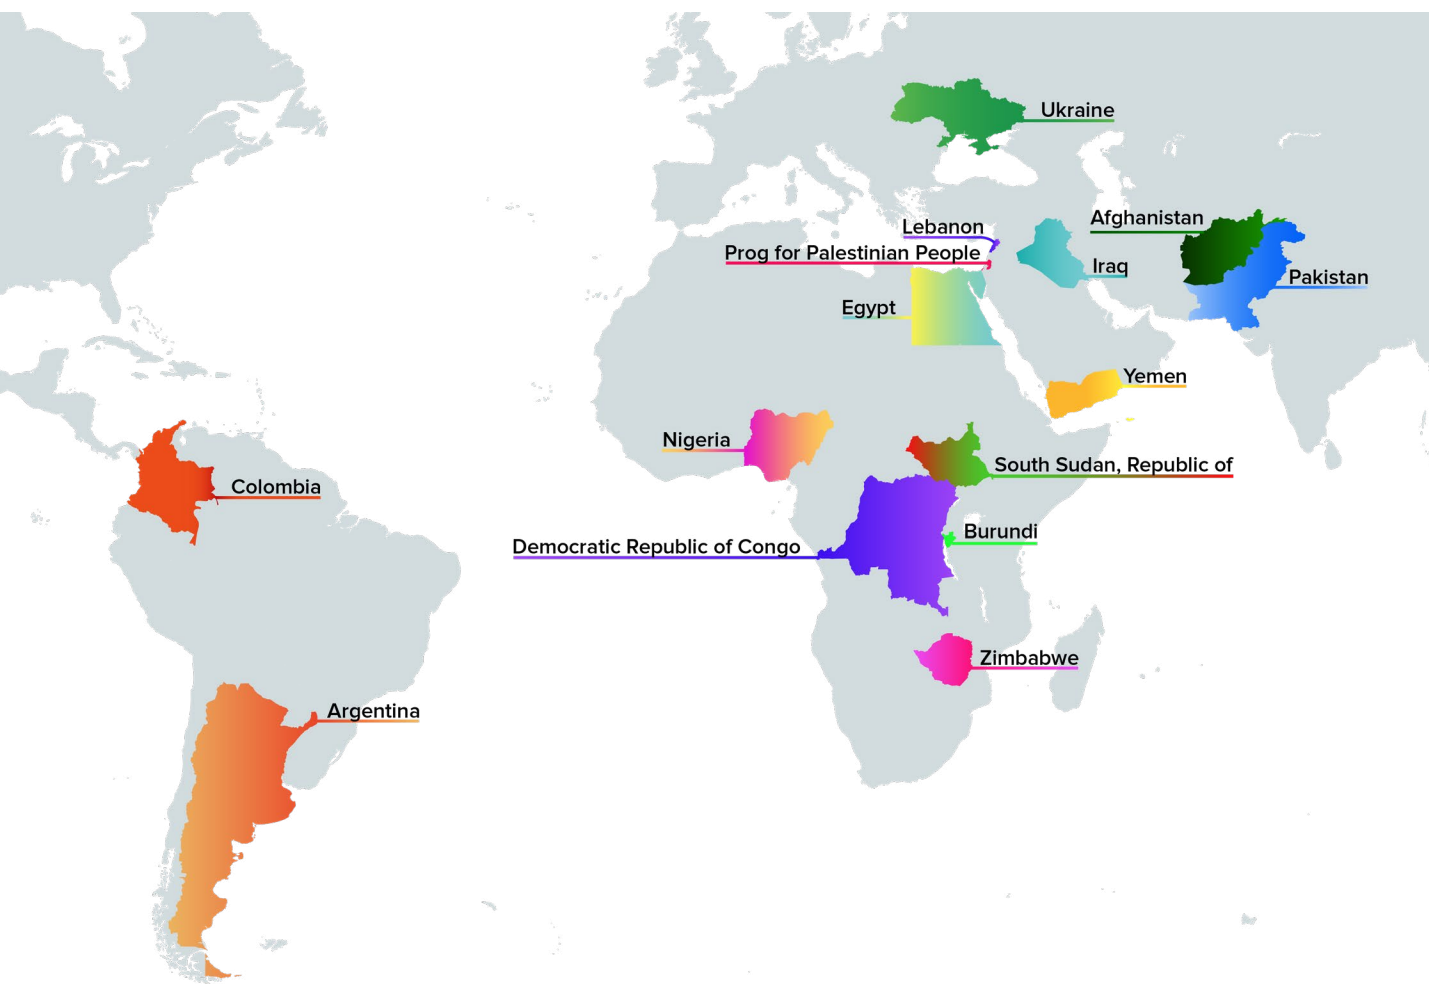

OTHER RESOURCES

Other resources are earmarked for specific themes, programmes or projects, and represent a critical complement to the regular resources. Other resources are channeled to UNDP through government financing, thematic Funding Windows, UN pooled funds, vertical funds, or third-party cost sharing.

In 2022, annual contributions to other resources decreased by 7 per cent to \$4.3 billion from \$4.7 billion in 2021.

TOP 15 RECIPIENT COUNTRIES OF OTHER RESOURCES, 2022

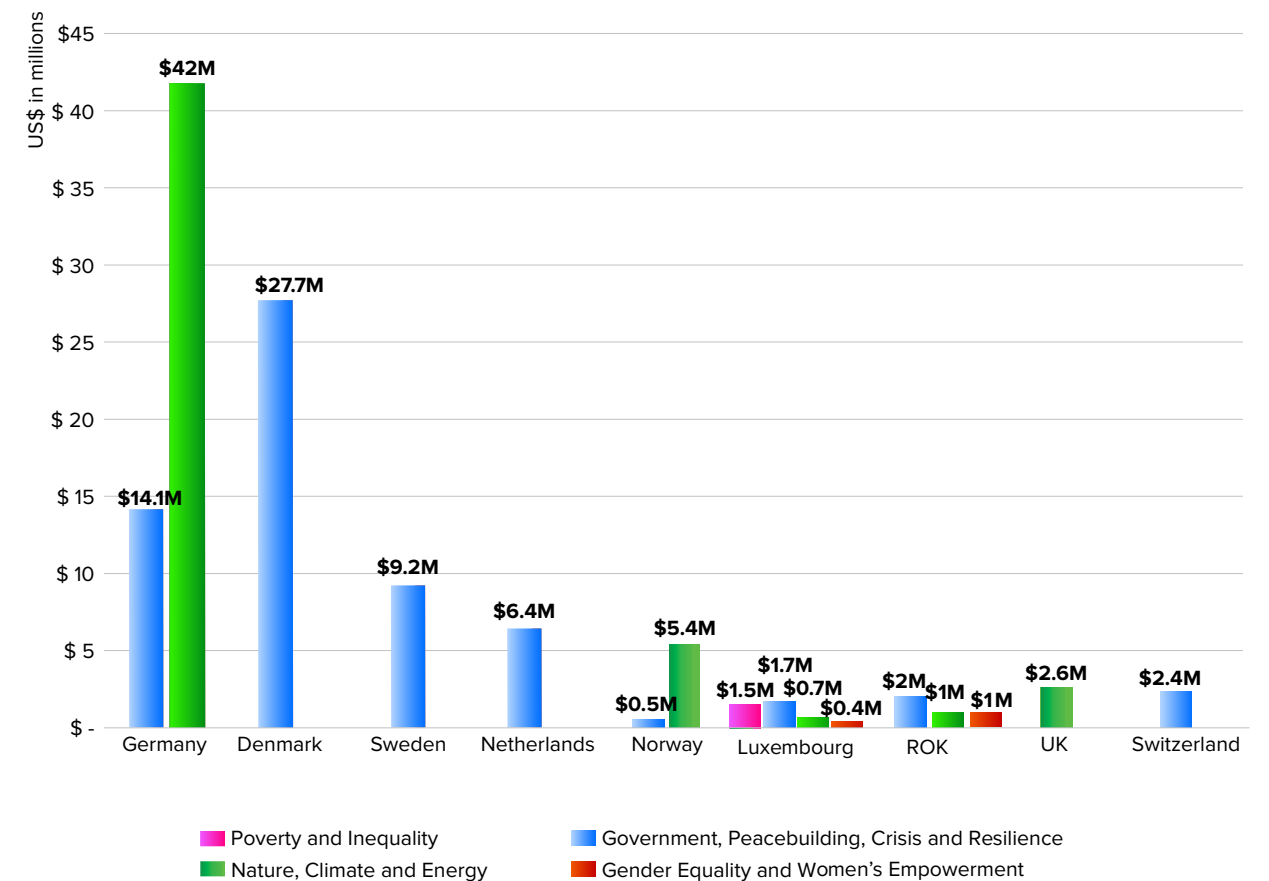

Other Resources - Thematic Funds

Thematic funds (funding windows) are softly earmarked pooled funds designed to support the achievement of Strategic Plan outcomes and address issues that cut across thematic areas.

In 2022, contributions to UNDP's funding windows increased by 42 per cent to \$119 million from \$84 million in 2021. UNDP is grateful for the continued support of the following funding window supporters:

CONTRIBUTIONS BY FUNDING WINDOWS, 2022

Special thanks go to our 2022 Funding Windows Contributors:

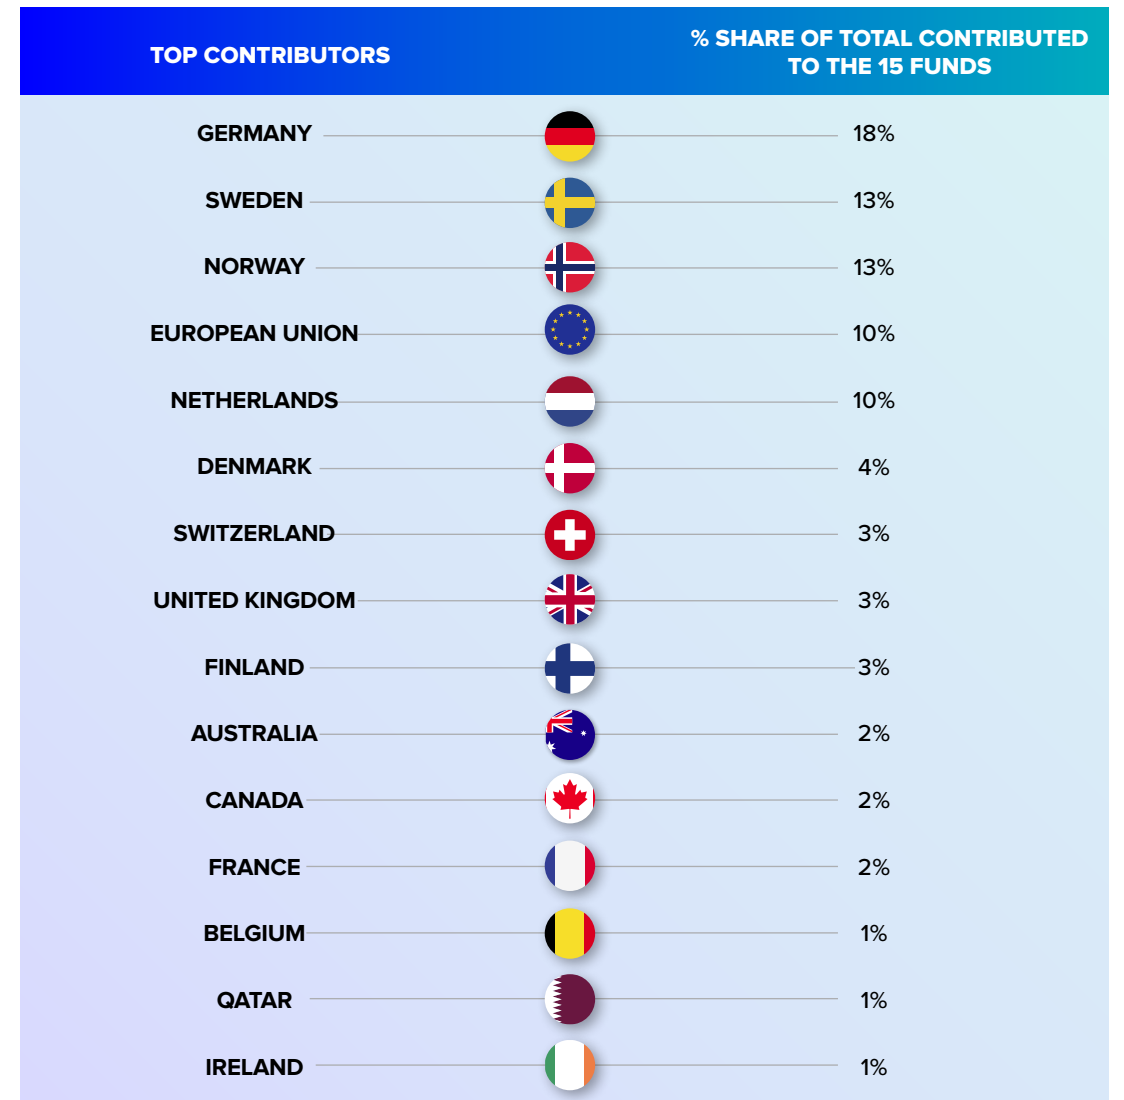

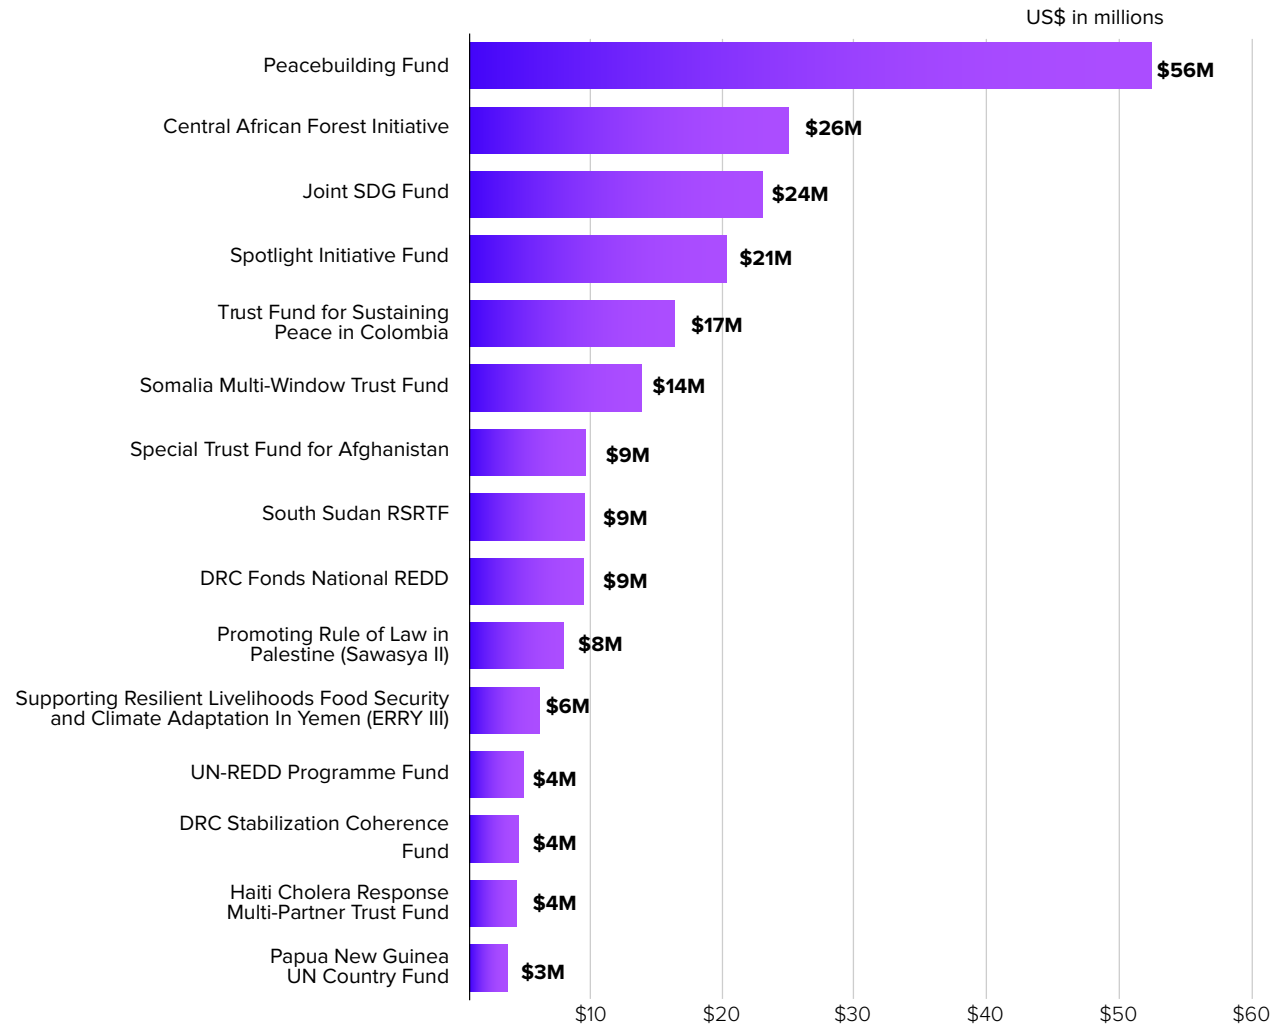

Other Resources - UN Pooled Funds

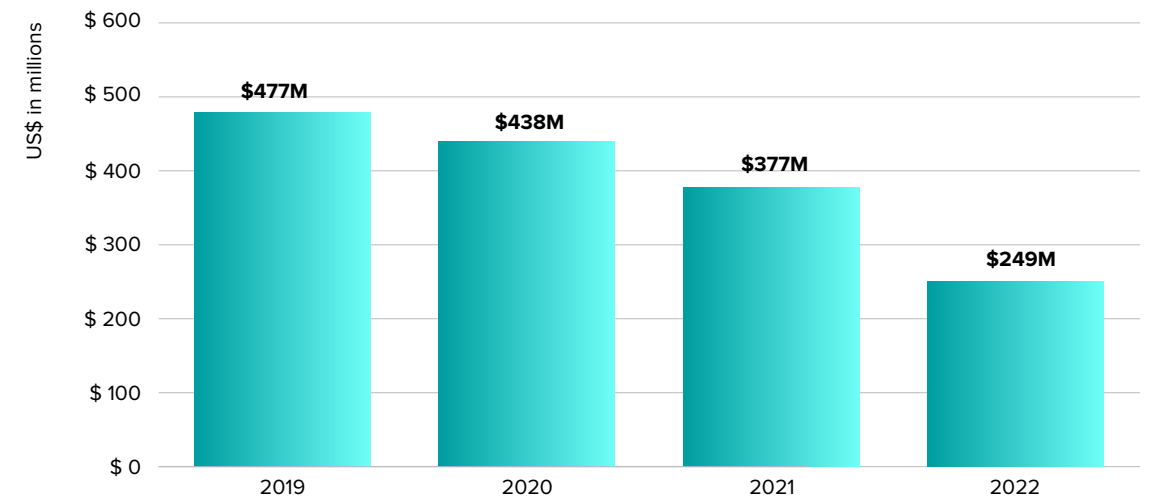

A UN pooled fund is an inter-agency financing mechanism to support a clearly defined programmatic purpose and results framework through contributions from more than one contributor. These funds enable global, regional and country-level responses to humanitarian, development, climate and environmental, and peace-related challenges.

In 2022, contributions from inter-agency pooled funds to UNDP decreased by 34 per cent to \$249 million from \$377 million in 2021.

TOP 15 UN POOLED FUNDS RECEIVED BY UNDP AS A PARTICIPATING UN ORGANIZATION, 2022

UN POOLED FUNDING TO UNDP, 2019-2022

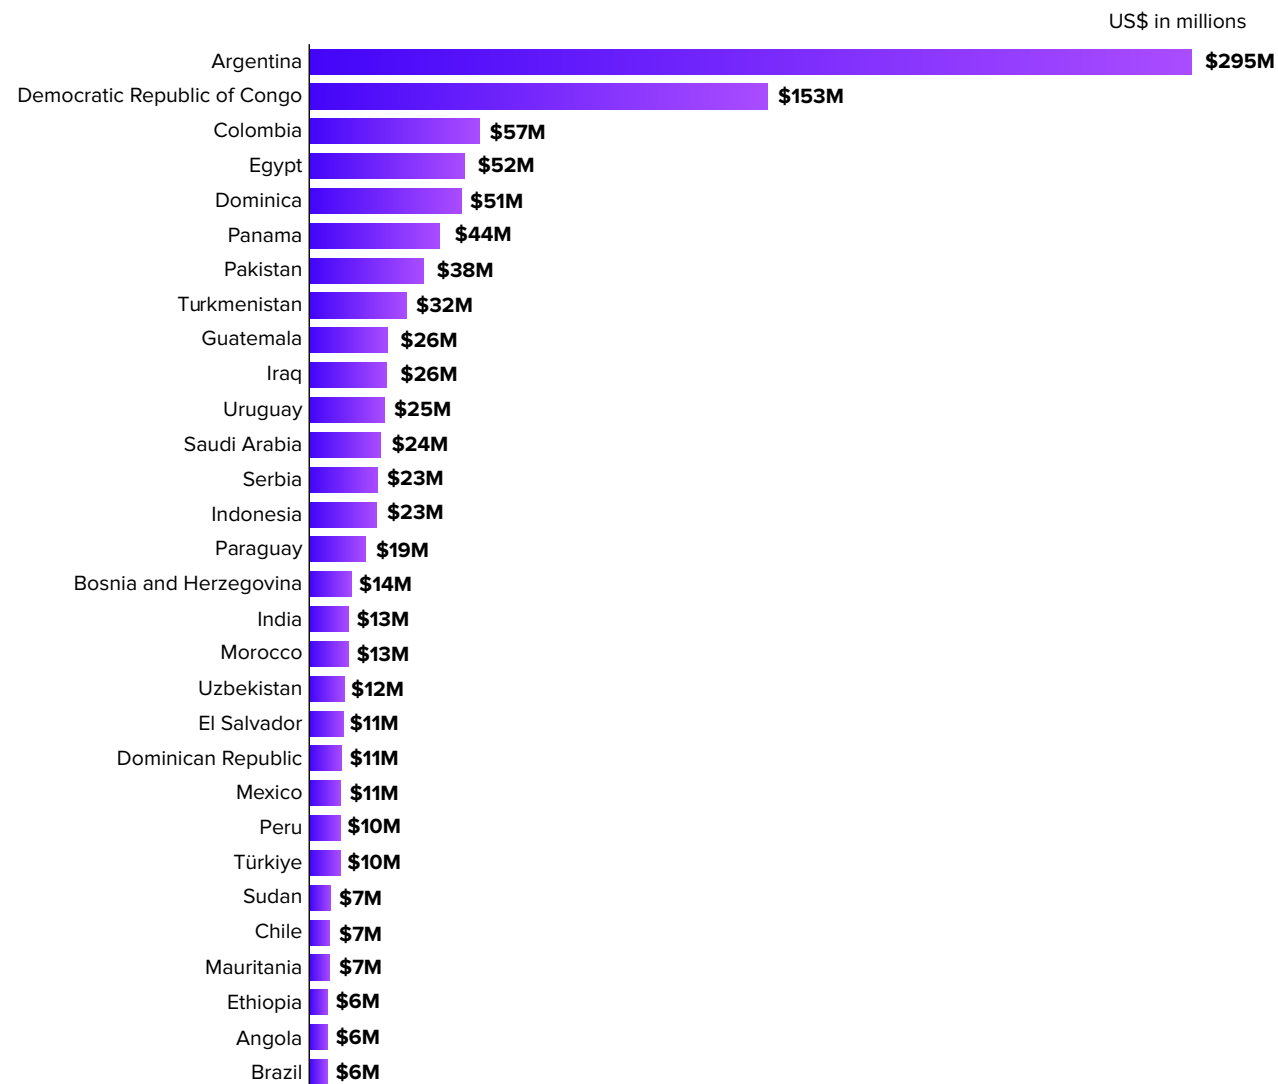

Other Resources - Government Financing

Government financing is a voluntary funding mechanism by which programme country Governments entrust their domestic resources, or loans extended by financial institution (IFIs), to UNDP to assist in the implementation of development initiatives in their respective countries.

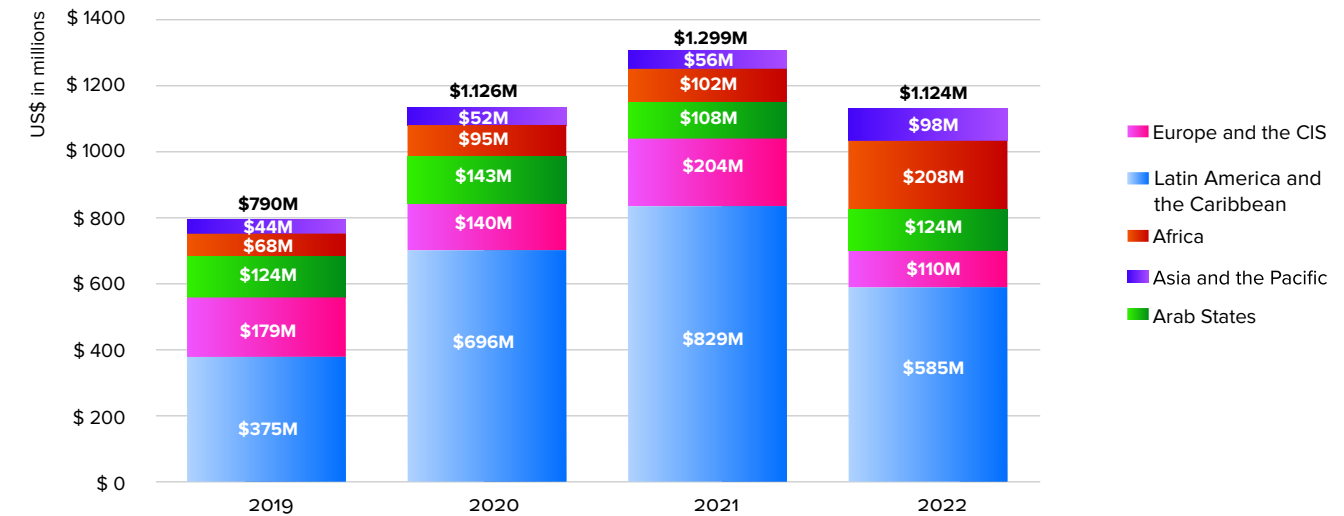

In 2022, total contributions from government financing amounted to \$1.1 billion, a 13 per cent decrease from \$1.3 billion in 2021, surpassing the \$1 billion mark for a third consecutive year, and making up 23 per cent of total annual contributions.

TOP 30 CONTRIBUTORS TO GOVERNMENT FINANCING, 2022

CONTRIBUTIONS TO GOVERNMENT FINANCING, 2019-2022

In 2022, programme countries in the Latin America and Caribbean region contributed 52 per cent of total government financing, followed by Africa (19 per cent), the Arab States region (11 per cent), Europe and the Commonwealth of Independent States (CIS) (10 per cent), and Asia and the Pacific (8 per cent).

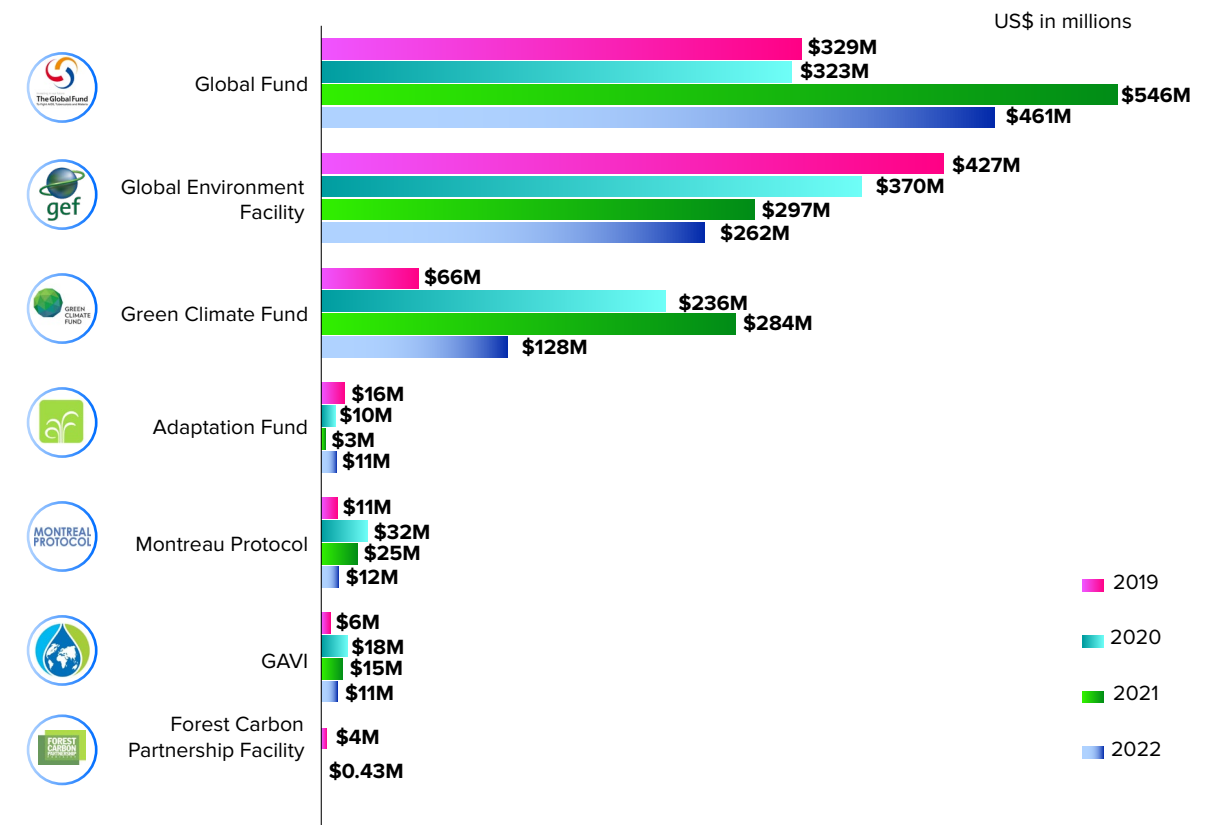

Other Resources - Vertical Funds

Vertical funds are earmarked for a single area of development such as nature, climate, energy, or health. These funds are governed by Steering Committees and are not directly administered by UNDP.

In 2022, UNDP received \$885 million from vertical funds, a 24 per cent decrease from \$1.2 billion in 2021, with the largest contributions coming from the Global Fund (\$461 million), Global Environment Facility (\$262 million), and Green Climate Fund (\$128 million).

CONTRIBUTIONS FROM VERTICAL FUNDS, 2019-2022

Other Resources - Third-party cost sharing

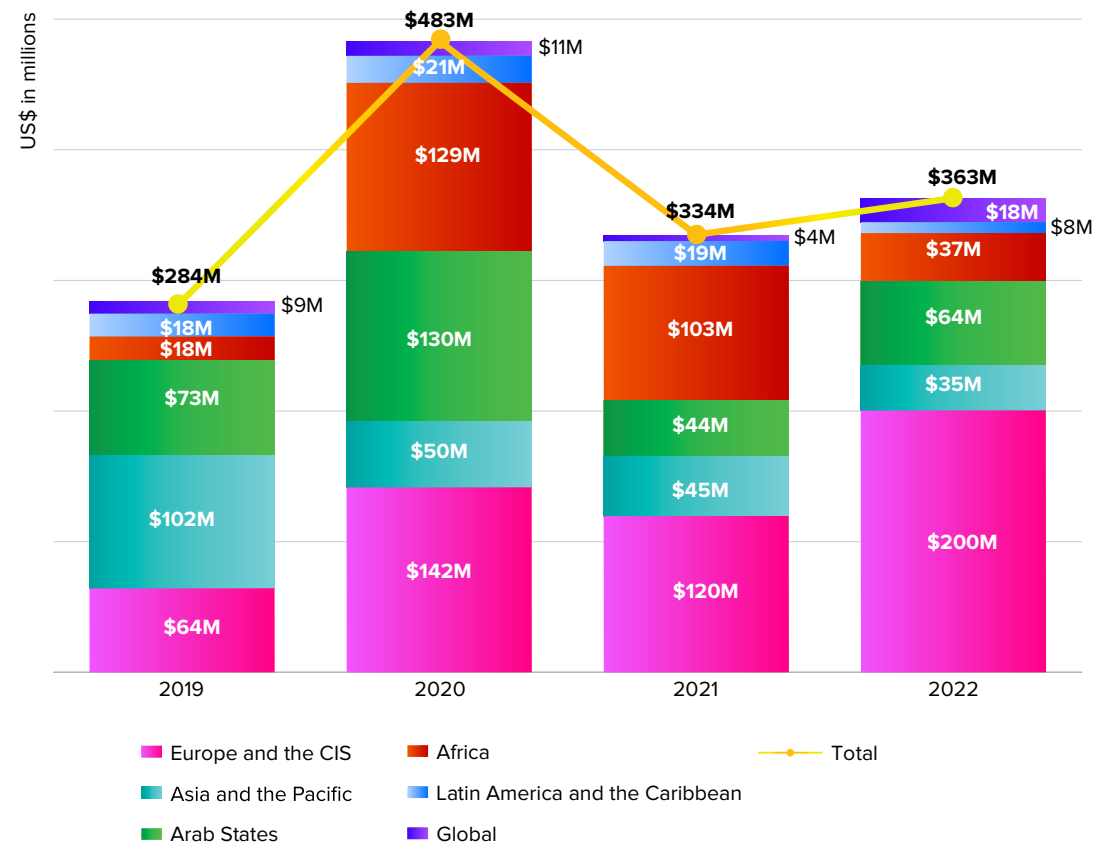

Third-party cost sharing continues to make up the largest share of earmarked other resources accounting for 39 per cent of total annual contributions in 2022, amounting to \$1.9 billion

PARTNERING WITH THE EUROPEAN UNION

UNDP's strategic partnership with the European Union (EU) focuses on achieving the Sustainable Development Goals, building resilience, climate action and sustainable energy, and supporting private sector development and investment.

The European Union was the fourth largest contributor to UNDP in 2022, contributing \$363 million, a 9 per cent increase from \$334 million received in 2021. Countries in Europe and the CIS and Arab States are the largest recipients of these funds.

CONTRIBUTIONS FROM THE EUROPEAN UNION, 2019-2022

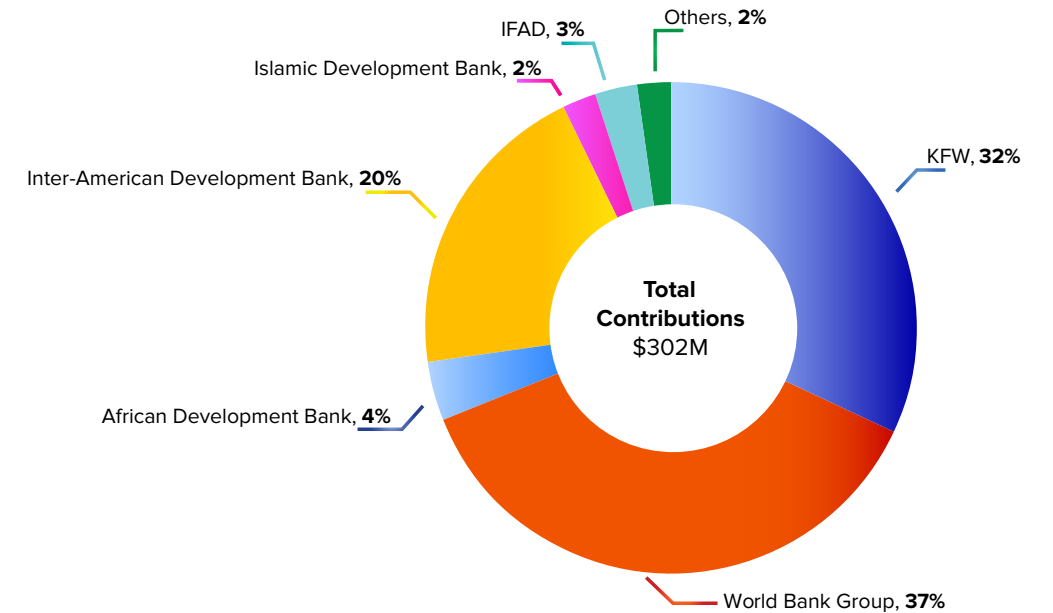

PARTNERING WITH FINANCIAL INSTITUTIONS

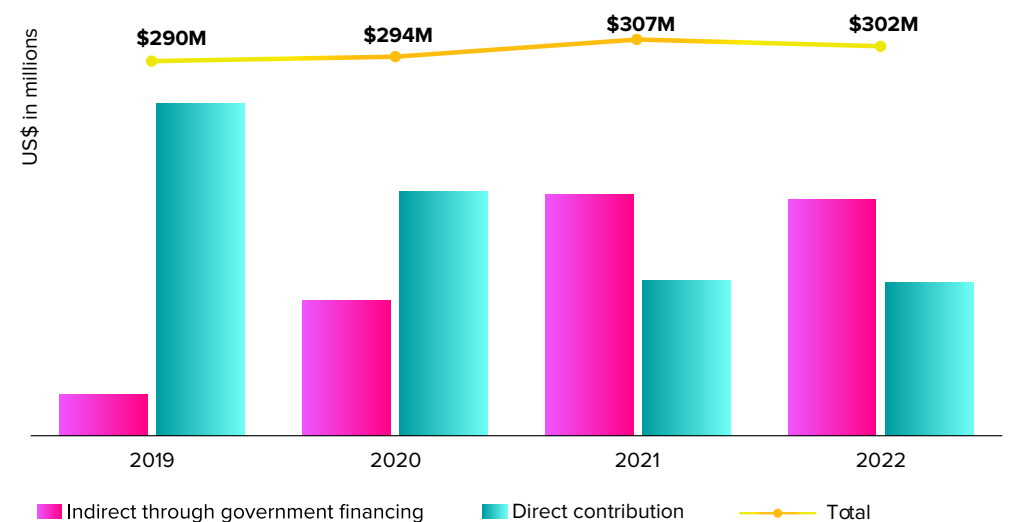

UNDP continues to strengthen its collaboration with International Financial Institutions (IFIs) to help governments leverage the financing needed to achieve the SDGs and address the socio-economic challenges brought about by the COVID pandemic and other crises.

In 2022, IFIs contributed \$302 million, a 2 per cent decrease from \$307 million in 2021. This amount comprises \$183 million in direct grants including \$96 million from KfW, the German development bank, reflected in the contributions of the Government of Germany to UNDP; and \$119 million in indirect contributions through government financing for UNDP support for loan implementation.

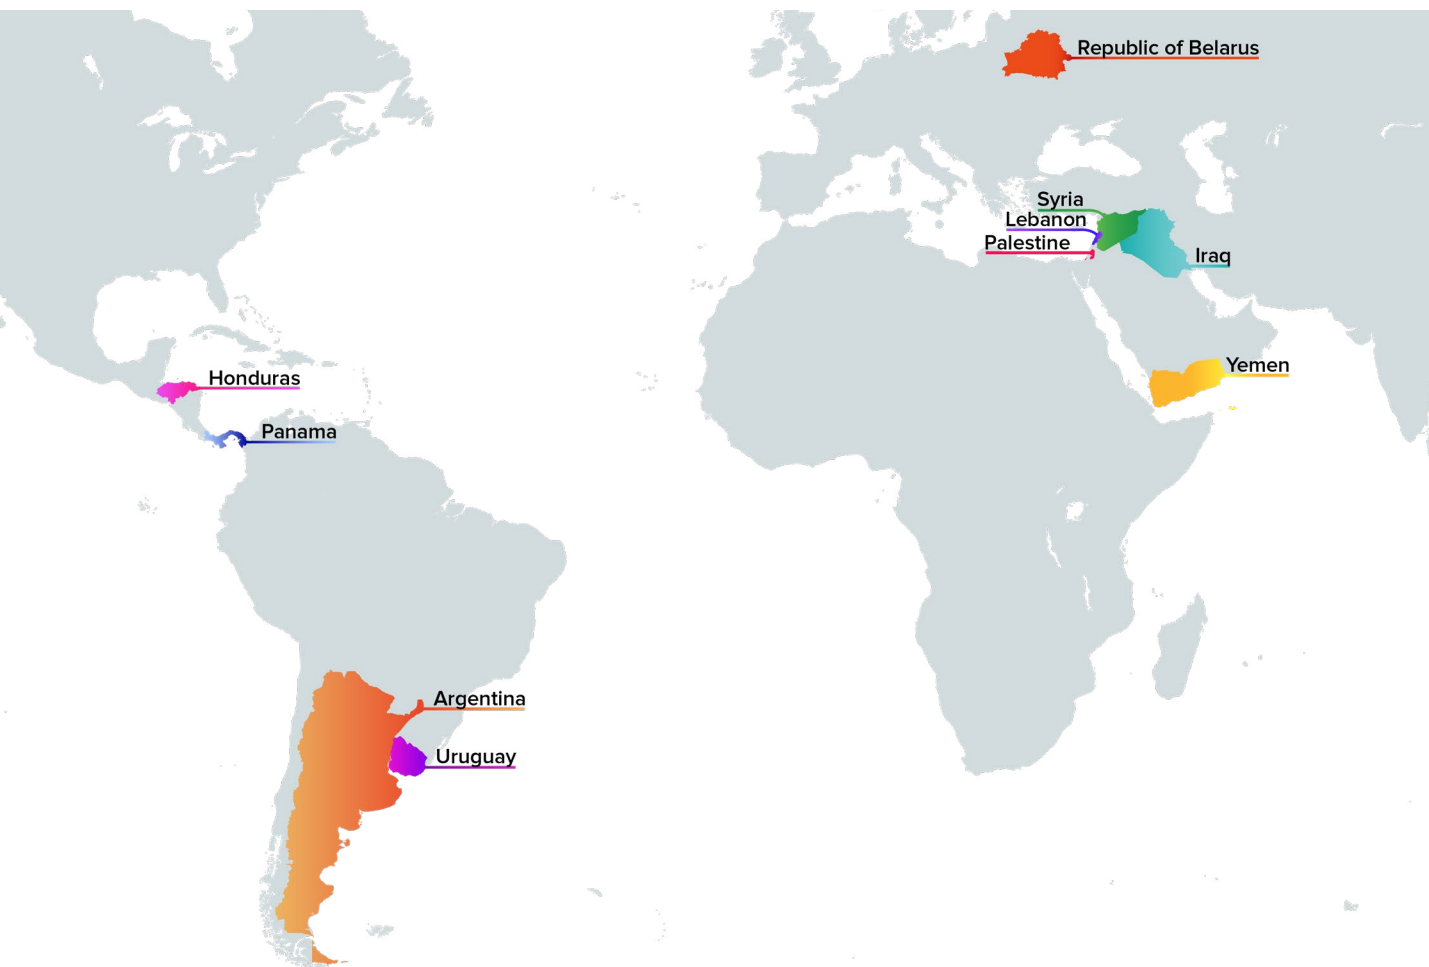

TOTAL CONTRIBUTIONS BY IFI, 2022

IFI CONTRIBUTIONS BY TYPE, 2019-2022

TOP 10 RECIPIENTS OF IFI FUNDING, 2019-2022

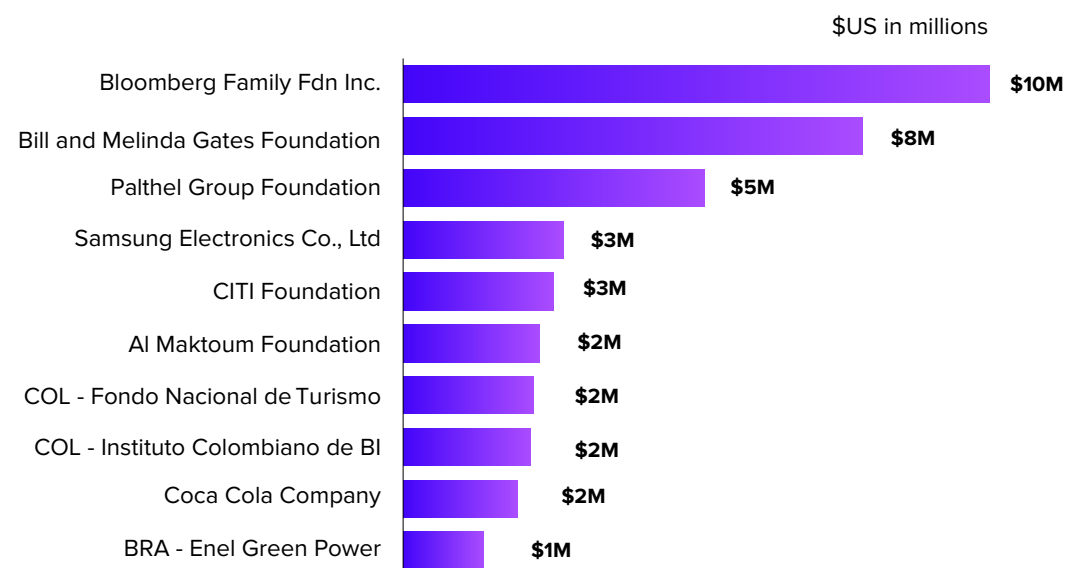

PARTNERING WITH PRIVATE COMPANIES, FOUNDATIONS, NGOS AND ACADEMIC INSTITUTIONS

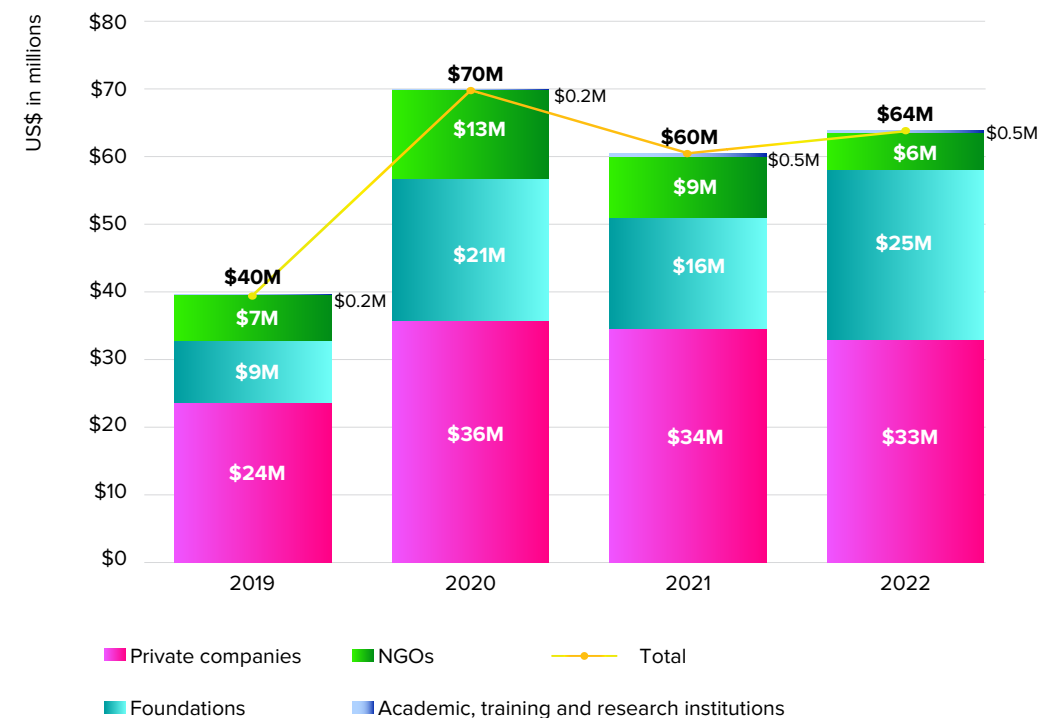

The UNDP Strategic Plan 2022-2025 emphasizes expanding alliances with the private sector and recognizes development financing as an enabler to promote the investment of over \$1 trillion of public and private finance to achieve the Sustainable Development Goals. Through its [Sustainable Finance Hub](#), UNDP is accelerating its partnerships with the private sector, and helping governments unlock private and public finances for the SDGs.

In 2022, total contributions received from private companies, foundations, NGOs and academic, training & research institutions reached \$64 million, a 7 per cent increase from \$60m in 2021.

TOP 10 CONTRIBUTORS, 2022

ANNUAL CONTRIBUTIONS, 2019-2022

PARTNERING WITH THE UN FAMILY

In 2022, UNDP continued to serve as a thought leader and partner to strengthen connections between **UN's system-wide partnerships and coalitions**, both in response to multidimensional, polycrisis situations, and to help accelerate the achievement of the 2030 Agenda for Sustainable Development and the SDGs.

Bringing UN partners together

Here are UNDP's top UN partners in 2022, working together globally – from Afghanistan to Ukraine – across our Signature Solutions to **address inequality, protect climate and nature, respond to crisis and conflict**, and more:

UNDP was proud to host crucial, specialized functions for the UN's work around the world in 2022:

- UNV deployed **12,408 UN volunteers** as a UN system-wide service, a 14% increase over 2021
- Volunteers representing **179 different nationalities** supported **55 UN entities** in **166 countries**

- **\$1.74 billion** in resources transferred to UN agencies and implementing partners to provide integrated development responses
- **134 programme countries** received pooled financing across the humanitarian, peace, development and climate portfolio

- Supported the development and scaling up of more than **170 digital and financial products and services**, reaching **440,000+** micro, small and medium enterprises (MSMEs) and **16 million people**
- Helped catalyse over **\$550 million** in additional public and private investment capital for sustainable development

- **150 governments, 30 UN entities and international organizations** and many other partners supported to exchange good practices and lessons in South-South and triangular cooperation
- **500+ institutions connected** to work on South-South and triangular cooperation, sharing 1000+ good practices on the digital platform, covering all SDGs
- South-South trust funds benefited **70+ developing countries** in partnership with **20 UN entities**
